

SpeedComp SYN-VP

SpeedComp SYN-VP is a high-quality, long-life compressor oil produced by combining synthetic base oils with a suitable high-quality additive package.

Usage

It is suitable for use in the crankcases and cylinders of piston and screw air compressors.

Features

Long Use Performance: It has longer usage efficiency compared to other paraffinic compressor oils by its synthetic structure.
High Demülsification Feature: Thanks to the existing demulsification in the oil , the ability to separate from water is perfect.It retains its lubricating properties in a short time by throwing water.
Excellent Oxidation Resistance and Foam Control: Thanks to its high oxidation resistance it prevents formation of deposits and viscosity thickening caused by oxidation. It quickly blows out the air inside it to prevent foaming.
Superior Fılm Layer: It prevents corrosion of the surface forming a film on metal surfaces and it prevents wear.
High Dispersant Feature: It ensures efficient operation by preventing the formation of sediments.
Continouons Efficiency at High and Low Temperature: It maintains the fluidity at low temperatures, high temperatures while providing more effective lubrication.

Technical Specifications

ISO Class	-	32	37	46	68	100
*Kinematic Viscosity @40°C, cSt	ASTM D 445	32	37	46	68	95
*Viscosity Index	ASTM D 2270	164	163	162	160	158
*Pour Point, °C	ASTM D 97	-51	-51	-51	-48	-45
*Flash Point, °C	ASTM D 92	240	240	242	248	250

**Data given above are typical properties and may vary slightly.*

Performance

DIN 51506 VDL
