

SPX 20W50

SPX 20W50 is a high performance multi-grade gasoline engine oil formulated with high quality mineral base oils and special additives. In addition to gasoline engine vehicles, it can also be used in diesel engines, passenger and commercial cars and LPG engines. It provides economic and high performance in all weather and driving conditions with out any problems.

Usage

It can be used in gasoline vehicles, as well as in commercial and passenger diesel vehicles and those operating on LPG systems. It delivers trouble-free, economical performance under all climate and road conditions and prevents wear.

Features

Prevent Formation of Sediment and Smut: While controlling the formation of sediments at high temperatures, it prevents the thickening of the oil while controlling the sediment control with the dispersant feature. It balances pressure. Maintenance costs are reduced.

High Corrosion and Foaming Durability: Thanks to its corrosion inhibitor within, the engine is protected against rust and corrosion and foam formation is prevented by the foam cutting additive, so the engine is protected against wear.

High Heat and Oxidation Durability: While this product provides a long oil change interval, extends oil life. It provides easy oil flow in cold climatic conditions.

High Cleaning Feature: Thanks to detergent and dispersant within, cleans engine parts.

Anti – Engine Wear: It prevents engine wear during initial operation.

Technical Specifications

*Kinematic Viscosity @100˚C, cSt	ASTM D 445	20.3
*Viscosity Index	ASTM D 2270	138
*Flash Point, ˚C	ASTM D 92	222
*Pour Point, °C	ASTM D 97	-21

**Data given above are typical properties and may vary slightly.*

Performance

API SG/CF-4 ACEA E2 MTU TYPE 1 MAN 270

Revision Number

24.09.2026 / REV04
