

Light Oil

Its a paraffinic based, high viscosity index mineral oil. It is used in fixed diesel and double fuel engines, in some hydraulic systems where additives are not required, wood cutting machines, large saws and some production areas as raw material process oil.

Features

Good thermal stability and resistance aganist oxidation.
Suitable for using in electrical engines, air cleaners, machine parts too.
Additionally, provides performance at some hydraulic systems.

Technical Specifications

ISO Class	-	L-10	L-30
Appearance	Visual	Clear	Clear
*Kinematic Viscosity @100 ºC, cSt	ASTM D 445	5,6	10,9
*Viscosity Index	ASTM D 2270	101	98
*Flash Point, ºC	ASTM D 92	226	248
*Pour Point, ºC	ASTM D 97	-9	-6
