

SpeedComp SYN-VP NS

SpeedComp SYN-VP NS is a long service life, high quality full synthetic compressor oil produced with the addition of a suitable high quality additive package to high technology synthetic ester base oils and PAO (polyalphaolefin) based synthetic oils.

Usage

It is suitable for use in the cylinder of piston and screw compressors.

Features

Long Use Performance: It has longer usage efficiency compared to other paraffinic compressor oils by its synthetic structure.
High Demülsification Feature: Thanks to the existing demulsification in the oil , the ability to separate from water is perfect.It retains its lubricating properties in a short time by throwing water.
Excellent Oxidation Resistance and Foam Control: Thanks to its high oxidation resistance it prevents formation of deposits and viscosity thickening caused by oxidation. It quickly blows out the air inside it to prevent foaming.
Superior Fılm Layer: It prevents corrosion of the surface forming a film on metal surfaces and it prevents wear.
High Dispersant Feature: It ensures efficient operation by preventing the formation of sediments.
Continouons Efficiency at High and Low Temperature: It maintains the fluidity at low temperatures, high temperatures while providing more effective lubrication.

Technical Specifications

ISO Class	-	68
*Kinematic Viscosity @40˚C, cSt	ASTM D 445	68
*Viscosity Index	ASTM D 2270	167
*Pour Point, °C	ASTM D 97	-42
*TAN, mg KOH/gr	ASTM D 664	0,13

**Data given above are typical properties and may vary slightly.*

Performance

DIN 51506 VDL

Revision Number

01.11.2021 / REV02
