

Moto Chainlube

Teflon Motorcycle Chain Lubrication Spray, protects all motorcycles and bicycle chains with extreme antifriction Teflon (PTFE) performance. Provides excellent anti-splash and grip performance. Has weather-resistant, abrasion-resistant, moisture-proof features with long-term lubrication.

Usage

All motorcycle chains lubricate types (road and off-road) and chains of other vehicles (bicycle, moped, go-kart, ATV ...).

- Shake the bottle before use.
- Spray on the chain and wait for 5 minutes to dry.
- If the chain is very dirty, brush it with a non-abrasive brush.
- SPEEDOL MOTO CHAINLUBE your chain with Teflon (PTFE) Chain Lubricating Spreyi.
- Repeat the process every 1000 km to increase the life of the chain.

Features

It removes all coated sediments such as dust, sand, soil, and oil.
The non-chlorine-free oil extraction formula is suitable for O-ring, X-ring, Z-ring chains.
It evaporates very quickly.
Completely cleaned, leaves no residue in the chain.
