

SPD Milking VP

SPD Milking VP is a vacuum pump oil specially developed for use in milking machines blended with high quality base oils and additives.

Usage

SPD Milking VP is recommended for the lubrication of associated milk handling hydraulics and equipment. It is also suitable for use in vacuum systems with copper components.

Features

Improved Longevity: It protects the vacuum pump from wear at high temperatures, ensuring a longer pump life.
Excellent Rust and Oxidation Resistance, Foam Control: Thanks to high oxidation resistance prevents rust, sediment formation and viscosity thickening caused by oxidation. It prevents foaming with its antifoam additive.
High Corrosion Protection: Thanks to the corrosion inhibitor in additive system it is protective against corrosion.

Technical Specifications

*Kinematic Viscosity @40˚C, cSt	ASTM D 445	68	100
Appearance	Visual	Bright and Clear	Bright and Clear
Colour	Visual	Blue	Blue
*Viskozite İndeks	ASTM D 2270	110	108
