

Zeta 0W30

Zeta 0W30 is a fully synthetic engine oil blended with synthetic base oils and active cleaning featured special additives. It is produced for 4-stroke engines with modern gasoline, diesel and LPG, increases the performance and power of the engine and provides fuel economy with low friction feature. Its fully synthetic formula provides superior protection to the engine at severe conditions in hot and cold climates.

Features

High Performance Under Difficult Conditions: In cold weather, the motor easily warms up and runs, and at very high temperatures it resists thinning, so the motor does not allow trouble. Full power and protection as from the first start is ensured.

Anti – Engine Wear: It prevents engine wear during initial operation.

Low exhaust emissions: It Reduces exhaust emissions and helps to protect the environment.

High Heat Oxidation and Foam Durability: While this product provides a long oil change interval, extends oil life. By neutralizing the resulting acid, it provides protection against the rust.Prevents abrasions.with the foam control.

Excellent Protection: It protects the engine against wear during high temperatures, allowing the engine to remain within the initial manufacturing tolerances.

High Engine Cleaning: Thanks to detergent and dispersant within , cleans engine parts. Cleaner parts work better and provide better performance.

Working at Low Temperature: Even at low temperatures, the first operation is easy and the engine life is extended.

Technical Specifications

*Kinematic Viscosity @100˚C, cSt	ASTM D 445	10,70
*Viscosity Index	ASTM D 2270	176
*Flash Point, °C	ASTM D 92	240
*Pour Point, °C	ASTM D 97	-45

**Data given above are typical properties and may vary slightly.*
