

Drilling Fluid

It is a low viscosity, very low aromatic hydrocarbon fluid used for the most demanding drilling applications Mining and Drilling applications.

Technical Specifications

Color, Appearance	Visual	Bright and Clear, White, Transparent
Density @15°C, gr/cm³	ASTM D 4052	0,78 - 0,83
Kinematic Viscosity @40ºC, cSt	ASTM D 445	1,0 - 3,0
Aromatic Content, max.	UV1	%0,5
Flash Point, °C, min.	ASTM D 93	74
