

Zeta FJA 0W30 C2

Zeta FJA 0W30 C2 is a full synthetic engine oil mandatory for the latest Ford branded (models after 2014) Euro 6 TDCI Duratorq engines with new generation gasoline or exhaust gas after-treatment and turbocharging. Thanks to the additive technology that meets the performances of ACEA C2 and Ford WSS-M2C950-A, which provides high durability and fuel economy, it provides protection against microscopic abrasions that may occur at critical stages of start-stop driving with its strong film layer on engine parts.

Usage

It is especially recommended for use in diesel engines of the latest technology Ford branded vehicles. It is a fully synthetic diesel engine oil with superior friction technology and low fuel economy, specially developed for the new generation Ford vehicles using Ford's turbocharged diesel injection system engines TDCI and TDCI Duratorq as of 2014.

Features

Protects its viscosity with its outstanding thermal and oxidation resistance and extends the oil change period.

Prevents abrasions that may occur during the first start by maintaining its fluidity in cold working conditions.

While providing long oil change interval, it extends oil life. It provides protection against rust by neutralizing the acid formed. It prevents abrasions with foam control.

Protects the engine against wear at high temperatures and ensures that the engine remains within the initial production tolerances.

Technical Specifications

*Kinematic Viscosity @100˚C, cSt	ASTM D 445	9,61
*Viscosity Index	ASTM D 2270	190
*Flash Point, °C	ASTM D 92	224
*Pour Point, °C	ASTM D 97	-42

**Data given above are typical properties and may vary slightly.*
