

Zeta DX1 0W20 G2

Zeta DX1 0W20 G2 is a fully synthetic engine oil developed specifically for new-generation gasoline vehicles in the Opel group, offering excellent cooling technology and fuel economy. Thanks to additive technology that meets GM Dexos1™ Gen 2 performance standards, it provides anti-wear performance that prevents damage to critical engine components. It is not recommended for use in diesel vehicles.

Usage

It has been specially developed to prevent premature ignition at low speeds in General Motors' latest gasoline vehicles.

Features

Features superior cooling technology.
Provides excellent protection against low-speed pre-ignition.
Manufactured with anti-wear technology.
Delivers fuel economy.
Provides robust engine protection.

Technical Specifications

*Kinematic Viscosity @100˚C, cSt	ASTM D 445	8,58
*Viscosity Index	ASTM D 2270	175
*Flash Point, °C	ASTM D 92	210
*Pour Point, °C	ASTM D 97	-42

**Data given above are typical properties and may vary slightly.*
