

SpeedCut Multi Metal M

SpeedCut Multi Metal M is a general purpose waterless cutting oil with medium EP feature that protects against corrosion and abrasion, developed for medium and light operations of all kinds of metals, including yellow and soft metals.

Features

It does not darken yellow metal.
Provides high protection against rust and corrosion
Its anti-wear performance is strong. It prevents the formation of burrs.
Does not smoke even in medium difficulty operations. Keeps vapor and fog formation low
It is economical as it can be used at many points.
It has high lubricating properties and cooling effect.

Technical Specifications

*Kinematic Viscosity @40°C, cSt	ASTM D 445	10	15	22	32	46
Copper Strip Corrosion Test @100°C, 3 hours, max.	ASTM D 130	1b	1b	1b	1b	1b
*Flash Point, ºC	ASTM D 92	155	180	190	200	205
*Wear Diameter, mm	ASTM D 4172	0,2	0,22	0,25	0,3	0,33
