

Zeta Hybrid 0W16

Zeta Hybrid 0W16 is a full synhetic engine oil that is low-ash, low-fuel/high-energy focused environmentally friendly formulated for new generatiob hybrid technology vehicles and passenger car and light commercial vehicles.

Usage

Zeta Hybrid series, which complies with the API SN Plus specification effective from May 1, 2018, is an excellent choice, especially for T-GDI (direct injection turbocharged) vehicles, thanks to its ability to prevent premature ignition of the fuel mixture in the cylinder. API SN PLUS provides a significant advantage against low-speed pre-ignition (LSPI), a catastrophic engine failure event caused by high pressure build-up in the cylinder. This is particularly common in GDI (Direct Injection) engines equipped with a turbocharger.

Features

Features excellent cooling technology.
Provides excellent protection against low-speed pre-ignition.
Includes excellent wear and tear protection technology.
Ensures fuel economy.
Provides strong engine protection.

Technical Specifications

*Kinematic Viscosity @100˚C, cSt	ASTM D 445	7,99
*Viscosity Index	ASTM D 2270	164
*Flash Point, °C	ASTM D 92	215
*Pour Point, °C	ASTM D 97	-42

**Data given above are typical properties and may vary slightly.*

Performance

API SP (RC), API SN PLUS/SN, ACEA C2-A5/B5

Revision Number

01.12.2024 / REV03
