

Marine CSC Grease

This is a high-performance, multi-purpose grease with extreme pressure properties, developed to lubricate and protect all mechanical parts against corrosion and wear in marine environments. It is used for application to parts that come into contact with seawater or are exposed to heavy loads and seawater spray.

Features

Insoluble in water.
Provides high oxidation and corrosion protection in saltwater environments.
Has high abrasion resistance, extreme pressure and thermal resistance.

Technical Specifications

Soap Type	-	Ca sulfonate
Colour	Visual	Dark Beige
NLGI	-	2
Dropping Point, °C, min.	TS 5937 ISO 6299	305
*Base Oil Viscosity @40°C, cSt	ASTM D 445	500
Four Ball Analysis, kgf, min.	ASTM D 2596	500
*4 Ball Wear Diameter, mm	ASTM D 2266	0,36
Rust Test	ASTM D 1743	Pass
Timken Ok Test, Lb	ASTM D 2509	65
Water Spray Resistance, %	ASTM D 4049	24,4
Washing with Water, 1h, 79 °C, %	ASTM D 1264	3,3
Operating Temperature, °C	-	-25/+175

**Data given above are typical properties and may vary slightly.*
