

Bike Chain Lube

Bike Chain Lube is a high-performance lubricant formulated for lubricating bicycle chains and sprockets. It significantly reduces friction and improves performance. Its white, oily consistency makes it transparent, and it can be easily washed off clothing, provided the chain wasn't previously soiled.

Usage

Apply a thin, even layer to the inside of the previously cleaned chain, wrap it around a few times, wait a short time for it to fully penetrate, and gently wipe off any excess oil with a clean cloth. It can be safely used on all types of on-road, off-road, mountain, road-racing, and city bikes.

Features

Reduces friction and provides lasting protection against wear and corrosion.
Reduces unwanted chain and sprocket noise, making gear changes easier.
Easy to use and long-lasting thanks to its resealable packaging lid.
Easy to rinse, leaving no marks on clothing.
Suitable for all seasons.

Technical Specifications

*Kinematic Viscosity @40˚C, cSt	ASTM D 445	68
*Viscosity Index	ASTM D 2270	115
*Flash Point, °C	ASTM D 92	236
*Pour Point, °C	ASTM D 97	-15
