

Biosolv Cleaner SP10

Biosolv Cleaner SP10 is a water-based cleaner/degreaser formulated to safety remove heavy cutting oil, grease, lubricants and organic deposits from all types of surfaces except for painted surfaces.

Usage

- Heavy Duty Parts Degreasing
- Ultrasonic Cleaning
- Pressure Washing
- Dip Tanks
- Spraying
- Brushing
- Wiping, Sweeping Applications
- Parts Washers

Application Method:

1. Spray the solution onto the required surface using a low-pressure spray device.
2. Wait 3-10 minutes to allow the reaction.
3. Spray with a high-pressure water jet to remove the solution. (Applicable for open washing)

Features

An excellent alternative to hazardous solvents and chemicals used in cleaning and degreasing applications.
Designed for numerous industries and applications.
Its unique formula is operationally and environmentally safe.
Composed of non-hazardous components. Non-flammable and fireproof.
Biodegradable. Water soluble.
Does not corrode most surfaces.
Does not produce fumes. Easy to use.

Technical Specifications

Temperature	Ambient Temperature
Concentration	100%, Direct Use
Post-Application Waiting Time	30 seconds – 10 minutes
