

Multi Purpose Spray

It cleans, oils, dissolves ruins, adhesives, extremely difficult stains and loosens jammed parts by rust. Penetrates deep into rusted surfaces, provides loosen. It can easily penetrate rusts and clings to surfaces very well. Also it nourishes and lubricates rope and wire based constructions (elevator) and protects from outer effects so long.

Usage

It is used as an excellent water repellent in the automotive and marine industries, particularly in engines where water and moisture are undesirable. It penetrates even the narrowest and most confined spaces, protecting the surface from external elements.

Application:

- Shake well before use.
- Thanks to its special valve system, the can can also be used upside down.
- Apply the product to the surface to be squeezed, with or without attaching the wand to the actuator tip, and wait for it to penetrate.
- Contains environmentally friendly, ozone-safe propellant gas.

Features

Easily penetrates.
Spreads and adheres very well to surfaces.
Repels water and moisture.
Protects against corrosion.
Eliminates annoying squeaking noises, ensuring quiet operation for a long time.

Technical Specifications

Physical Appearance	Visual	Aerosol
Color	Visual	Yellow
Density @15°C, g/cm³	ASTM D 4052	0,8001 - 0,9501
Kinematic Viscosity @40°C, cSt	ASTM D 445	2-10
