

Engine Cleaner Spray

Thanks to its special formula, it penetrates oil, grease, and stubborn dirt on the engine very quickly, dissolving them. It contains environmentally friendly, ozone-safe propellant gas.

Usage

It penetrates very quickly into oil, grease, and stubborn dirt on the engine, and is used to dissolve the dirt.

Application:

- Apply after turning off electrical parts such as the battery, distributor, and alternator.
- Shake well before use.
- Do not spray onto a hot engine.
- Apply the spray from a distance of 20 cm from the surface.
- Spray onto dirty surfaces and wait for it to penetrate and the dirt to run off.
- Rinse the engine. Do not start the engine without rinsing it with water.
- Repeat the process several times in heavily soiled areas.
